Our ice cream is free of preservatives,
artificial flavors and egg!

café eismeer

We warmly welcome you! Since 2008 more and more guests have been visiting us. Our cozy and friendly “Café Eismeer” is no longer just an insider tip; instead, it has become one of the city’s trendiest venues without having lost its individual flair and charm. Surely the reason behind our success, is the extraordinary quality of our natural ice cream creations!

A renowned gelato world champion from Italy taught us all about the art and the secrets of ice cream making. “Of course it’s possible to learn the craftsmanship of producing ice cream”, he would say, “but it is no subject to teach. Rather, the product will be determined by it’s resources. Observe the nature and learn...”. That was the message we took back home with us. This called our particular attention to our ingredients’ origins. In terms of taking responsibility in producing fruits – whether chocolate from Ecuador or vanilla from Madagascar; people often take for granted the delicate process of biological cultivation! Our “Cafe Eismeer” is fair trade certified! Oranges and honey are produced on our own properties in Valencia, Spain. Our business is proudly so a part of the Ground Farming Community.

We make our ice cream with love...High standards and tradition as a MUST... therefore we say NO to any additives or artificial colorings. Our results are sweet sins without regrets!

We offer over 120 varieties of natural ice cream. A dozen of delicious flavors are daily waiting for you to be explored. Many of our specialties are vegan as well. We additionally offer a variety of the best homemade waffles in town; vegan as well as non-vegan.

Do you have any questions for us? New ideas? Please come and talk to us and make your Eismeer experience even more so an unforgettable one!

Your ice cream makers from Pestalozzistraße,
Robert and Marcus
